

Curtain Measuring Guide

So you're doing some window shopping? Well, our handy Curtain Measuring Guide is here to help ensure you get the right size curtains to match your needs.

Step 1: Find your window. (Just seeing if you're paying attention.)

Step 2: Choose your desired mounting width (A to B) and height (C to D).

- Mounting close to the window trim mimics the size of the window
- Mounting above and beyond the window trim helps block more outside light

Step 3: Choose your curtain length.

- Sill length or just below (A)
Measure from the top of the mounting height to your desired length
- Floor length (B)
Measure from the top of the mounting height to your desired length
